

National Storage Facility, Taylors Beach, NSW

National Storage is the largest self-storage provider in Australasia, offering customised storage solutions for both residential and commercial customers. With over 230 locations across Australia and New Zealand, National Storage is dedicated to delivering high-quality, convenient services backed by exceptional customer support.

Project Design Brief

A strong, easy to maintain underground tank was required to store and infiltrate stormwater runoff into the underlying water table. This would act to solve an existing flooding problem on the precinct.

ACO's Solution

- **StormBrixx® HD** – 777m³ geocellular stormwater tank.

Benefits

- Strong and quick to assemble
- Installed in a brick bonded and cross bonded configuration for optimal stability.
- The open cell structure permits completely free access for CCTV and jetting equipment which allows the whole system, including all the extremities, to be inspected and maintained from a few access points.
- Optimum storage capacity with 95% void ratio of total volume.
